

**BROOKSTON TOWN COUNCIL MEETING  
BROOKSTON TOWN HALL  
205 E 3RD STREET  
6:00 P.M.**

**May 14, 2025**

1. Approve minutes last meeting
2. Approve accounts payable
3. Any old or new business
4. Emmett: Give your report and answer any questions on request to purchase new mower. Update on pavilion ?
5. Troy: Report, Also how's new deputy working out ? Any questions for Troy. What can be done about blocking all openings by RR?
6. Ken : Latest update on all projects has anything changes on Water Bids, Blacktopping etc?
7. Terry L. : Any updates on project?
8. I met with Monticello Fire Chief/ Ambulance director to discuss and walk thru to see they have everything needed, as mentioned by time of our meeting they will be in full mode. He did ask for a hook up for a washer and dryer. I asked him to get with Emmett on getting price. They will be buying new washer and dryer, I wanted to ask council if they had any issue running water and vent and drain everything is handy just need estimate.

Another thing I plan on doing is meeting with one of the commissioners to discuss what they see for future of Brookston area, and possibly how the town can grow as far as housing we are totally locked in, I have talked to most owners of property around us with no success of expanding. I'm hoping to meet with commissioners to see their thoughts.

I sent email to council asking to send any request that can be discussed for budget next year, I'd like to have list by mid June so council can discuss and vote on priority. Larger items can be discussed since we fund them out of all accounts especially if used, for example mowing we have Parks which is in budget , Well field water account pays percent, same with Sewer and Electric.

We can also discuss future items I have several ideas how to pay for different things once identified.

One note don't forget we do have money in Park funds and others if something you want now. Just get with Regina and Emmett get estimates and bring to council. Not sure of amounts but Park fund does have money same with building and structures Dawn mentioned caps on building get with Emmett to get estimate and scope then run by council for approval.

Are there any concerns that anyone feels I'm not addressing. Sometimes things move so fast I forget to mention but I always bring everything back once ready for council to decide.

9. Any other new or old business to discuss. If not open for adjournment .
